PROFESSIONAL SUMMARY

Customer success, project and operations management professional with 3+ years across a startup, a global IT services firm and a US health-tech company. At iOPEX, audited the operational health of **20+ client accounts**, built the governance reporting senior leadership used to track them, and helped Delivery Heads shape upsell proposals. Now leads PMO governance at Assured Health Tech, building dashboards and AI-assisted tools that remove manual work. Has also built brands, websites and published apps for real clients, so understands how customers adopt products and grow.

CORE SKILLS

Customer Success: Client onboarding, account health monitoring, stakeholder management, requirement gathering, issue resolution, upsell identification, client communication

Project & Operations: Project governance, planning and scheduling, risk and dependency tracking, executive status reporting, SOPs, process standardisation, cross-functional coordination

Data & Tools: Jira, Asana, Advanced Excel, Google Sheets dashboards, Power BI, PowerPoint, Google Workspace, Google Analytics, Google Search Console, Google Cloud Console, Canva

AI & Automation: Prompt engineering, AI-assisted development, workflow automation, HTML, CSS, JavaScript, PWAs, Chrome extensions, GitHub, Google Play Console

PROFESSIONAL EXPERIENCE

Assured Health Tech
Jul 2026 – Present

Senior PMO

- Lead PMO governance for ongoing health-tech programs, tracking timelines, dependencies, risks and delivery health, and reporting status to leadership.
- Designed a Call Quality Audit dashboard on the team's Google Sheets tracker, giving managers a single view of audit results for their review meetings.
- Built **ZenPDF**, a privacy-first, in-browser PDF toolkit (edit, fill, sign, merge, compress, organise), so confidential health documents no longer go to third-party websites.
- Standardised trackers, reporting formats and workflows so decision-makers receive consistent, comparable project information.
- Coordinate across teams to align priorities and unblock issues before they turn into delays.

iOPEX Technologies
Jun 2024 – Jun 2026

PMO Analyst – Operations

- Monitored and audited the operational health of **20+ digital marketing and customer success projects**, flagging bottlenecks early and driving corrective actions with project owners.
- Built and streamlined project tracking and governance frameworks, giving senior leadership real-time visibility of status, risks and performance.
- Partnered with Delivery Heads and Senior Managers to uncover growth opportunities in existing accounts and shape value-added upsell proposals.
- Led automation initiatives that removed repetitive manual steps from the project lifecycle, saving effort and reducing reporting errors.

Creatink Solutions (Startup)
Jun 2023 – Jun 2024

Junior Full Stack Developer & Project Specialist

- Worked directly with the founder as a primary client contact, owning requirements end to end: discovery calls, scoping, delivery and post-launch support.
- Delivered responsive, SEO-friendly websites and landing pages against tight deadlines.
- Grew clients' digital presence through on-page SEO, content updates and social media assets.

Independent Brand & Digital Consultant
Freelance · Ongoing

Brand Strategy, Websites & AI Creative

- Built brands from scratch for **Arjuna Hospital, LKS Polyclinic, H24 Creationz** and other clients: naming, positioning, logo and visual identity.
- Built, launched and host client websites and installable web apps for **Rmax** (ISP and IT infrastructure), **Blend Infra** (construction) and **OCB** (US clothing brand), including on-page SEO and Search Console setup.
- Produce AI-assisted brand and festival video campaigns for Rmax and premium AI video ads for OCB.

SELECTED PROJECTS (AI-ASSISTED BUILDS)

- **ZenPDF** — every PDF tool in the browser: edit, sign, fill, merge, split, compress, convert and protect. Files never leave the device.
- **ZenDocs & Nodalis** — offline-first knowledge workspaces with linked notes, knowledge graph, kanban, priority matrix and Word/PDF export; companion ESP32-S3 e-paper voice-note device in development.
- **Shelf Shelf** — app launcher, dock and to-do extension with reminders and sync, published and maintained on the Chrome Web Store.
- **H24 Nexus & Google Play** — hub of 20+ free web apps (screen recorder, karaoke studio, logic puzzle and more) plus 7 Android apps published on Google Play.
- **QR Entry System** — check-in system for a large Trade Center Expo that ran with zero downtime under heavy footfall.

EDUCATION
